

30 January 2018

Dear Parent/Carer

Road Closure A3058

We have been informed by Cornwall Council that they intend to carry out roadworks on a lengthy section of the A3058, including Gwindra Road and Terras Road, which run through the village of St Stephen.

These roadworks are due to begin on Monday 12 February 2018 and last for up to two weeks. Work will take place between 0930 and 1600. These times are likely to be adjusted should the second week be used.

While Cormac, the appointed contractor, have indicated that they hope to be completed by the end of the half term week, Friday 16 February 2018, there may be some ongoing work which takes place during our first week back after half term.

We have been assured that any disruption will be minimised and that there will be constant access available to the school. However, there are likely to be some delays to traffic through the village. Those who drop off and pick up students from school may wish to consider allowing additional time.

We would like to thank you in advance for your patience while these works are taking place.

For more information about the planned roadworks, please visit www.roadwork.org.

Yours sincerely

Mr A Edmonds
Headteacher
