

May 2018

Dear Parents/Carer

Key Stage 3 End of Year assessments

I am writing to inform you of the arrangements for end of year assessments for Years 7, 8 and 9 students in the core subjects of Maths, English and Science.

End of year assessments are important for a number of reasons:

- They allow students to demonstrate what they have learnt
- They are an important opportunity to experience terminal examinations and revision which will benefit them when they do public examinations
- Together with work completed in class, they allow the school to assess the progress that the students have made since they began year 7.

The timetable for these assessments is below.

	Year 7	Year 8	Year 9
Tuesday 8th May	English	English	English
Wednesday 9th May	Science	No Exam	No Exam
Thursday 10th May	Maths	Maths	Maths
Friday 11th May	No Exam	Science	Science

Students will be in their normal lessons except during their assessments.

If you have any questions regarding these examinations, please contact the school.

Yours sincerely

Mr M Goodwin
Deputy Headteacher
